DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10 and 33-42, drawn to compounds and compositions of formula I wherein R₅ and R₆ together are -O-, classified in class 540, subclass 80+.
 - II. Claims 1, 2, 12-16, 33, 34 and 43-47, drawn to compounds and compositions of formula I wherein R₅ and R₆ together form a double bond between C-5 and C-6 and R₇ is oxo, classified in class 552, subclass 542+.
 - III. Claim 11, drawn to an antibody against 5 α , 6 α -epoxycholesterol-3-sulfate, classified in class 530, subclass 387.1+.
 - IV. Claim 17, drawn to antibody against 7-keto-cholesterol-3-sulfate, classified in class 530, subclass 387.1+.
 - V. Claims 18-27, drawn to a method of treating hypocholesterolemia utilizing compounds of formula I wherein R₅ and R₆ together are -O-, classified in class 514, subclass 172+.
 - VI. Claims 18, 19 and 28-32, drawn to a method of treating hypocholesterolemia utilizing compounds of formula I wherein R₅ and R₆ together form a double bond between C-5 and C-6 and R₇ is oxo, classified in class 514, subclass 178+.

Art Unit: 1616

- VII. Claims 48-57, drawn to a method of evaluating a compound of formula I wherein R_5 and R_6 together are $-O-$, classified in class 540, subclass 80+.
- VIII. Claims 48, 49 and 58-62, drawn to a method of evaluating a compound of formula I wherein R_5 and R_6 together form a double bond between C-5 and C-6 and R_7 is oxo, classified in class 552, subclass 542+.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and V (VII) are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for using the product as claimed can be practiced with another materially different product.

3. Inventions II and VI (VIII) are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for using the product as claimed can be practiced with another materially different product.

Art Unit: 1616

4. Inventions I (V, VII), II (VI, VIII), III and IV are drawn to different scope of compounds.

5. Inventions III and IV are drawn to antibodies against structurally different compounds.

6. Because these inventions are distinct for the reasons given above and the search required for one Group is not required for the other Groups, restriction for examination purposes as indicated is proper.

7. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, from within the elected Group, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

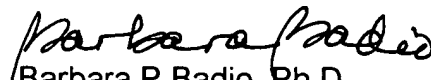

9. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
